It includes Dr. Resnick's research and analysis of a wide range of topics, including how lifestyle changes (such as fasting) and food timing affect health and well-being. As the book doesn't come out until January, I don't want to promote it by giving away any preview. However, I will give you an exclusive interview with Dr. Resnick about the book, in which he discusses his research, his motivation to write the book, and the biggest takeaways. So do you want to know the secret to controlling your hunger, breaking the yo-yo cycle, and eating a well-balanced, healthy diet? Well, you're in luck, because I have great news. Dr. Resnick published an article in Circulation Research in which he discusses his research on how the circadian clock in our bodies controls how we eat and consequently our health. "In a nutshell," said Dr. Resnick, "the main takeaway from my study was that as time goes on (or in the case of a day of food intake, fasting), the system that regulates our eating and sleeping, known as the circadian clock, attempts to correct for the various meal timing patterns that have been used. If we miss a meal during the day, the circadian clock will slow down and give us more time to eat later in the day. Conversely, if we eat a late dinner, the circadian clock will speed up and we'll eat more in the morning. So, if we've been eating a lot
