“Motion capture suits were essential in developing FIFA 22,” EA SPORTS FIFA creative director Trae Stephens said. “Using real-life player movements and on-the-ball behaviours combined with the data analysis and AI, gives us a far deeper insight to the types of actions that make up a football match. We are very proud of the new experiences we have created thanks to real-world matches and data.” Watch Trae Stephens go behind the scenes with the development team at Camp AMALTHEA, the FIFA 22 pre-production camp in Spain. For a video recapping the evolution of the real-world gameplay on EA Sports FIFA 19: Motion capture data is collected using the latest generation Pro Suit, the upper body MyNikeTK suit and the lower body Nike Basketball Pro Suit. The RealPlayer Motion Capture technology makes use of more than 1,000 sensors on the players, and the MyNikeTK sensors also capture joint and foot movements and foot friction, which helps during free kicks and when players are passing. You’ll notice unique breathing physics throughout the match, where players’ posture will change depending on the demands of the situation and fatigue, while players’ stamina is factored into their endurance and their movement. FIFA 22 introduces goal celebrations where you’ll be able to see a player’s personality shine through in their celebration: See the added added creativity in the player animations: Alongside the introduction of hyper-movement technology, a number of features have been introduced to aid in creating a more realistic simulation in general. There are 4v4 online multi-match play options, added authenticity through the addition of real-world photography and analysis that enable players to see the

preparation in addition to the ultimate goal, the penalty area and goalkeepers. You'll be able to set up any player to use any formation at any time and you'll have the ability to make substitutions, and in FM you'll be able to change your tactics, formations and even your team's ruleset. FIFA 22 also introduces a number of new player ratings and traits, including increased CPU intelligence. You'll be able to see that the player and whether they're more aggressive, or less aggressive. This helps with making tactics and formations more fluid. A new "Safety" mode is also

Fifa 22 Features Key:

- **Live Your Legacy** - New Live the Legacy Storytelling and Teammate Moments -- created to reflect Real League and Culture — combine to the ultimate soccer player experience. Live out your ultimate soccer player legacy. How does your legacy influence your teammates? How do you pass it on? And what can be gained from making a difference in the stories of the players you manage?
- **Real Location, Real World** - Experience life as a soccer player beyond the pitch. Explore new locations, meet new people, and follow your Pro. Keep training, live and move in-game where you want to be.
- **Play from the Midfield to the Backline** - Add a spearhead and playmaker to your squad, then use the new passing system to guide your play and feed a powerful midfield engine. Create elite stoppers and specialists in your team.
- **Feel Alive and Real** - Play with physics, and intelligent player animations. Real movement captures the action on the pitch while a new simulation keeps your feet on the ground, using crowds and stadium environments from the real-life stadiums. The game engine is built for next generation consoles, featuring more realistic ball physics to create a passable replica of the authentic soccer ball.
- **Create Moves with New Player Dynamics** - Execute player animations with authenticity, on-the-ball actions, and dribble and slide control with brilliant new player dynamics that bring all the challenges of a real-life match into FIFA, including how players pass, shoot, head and know where your teammates are on the field. And control each player with just one finger. Or two fingers.
